Section 3: Consent

Consent for vaccination: The most common reactions may be a sore or tender arm at the injection site, or possibly fever, chills, headache, or muscle aches. Symptoms usually last from 24-48 hours. I release HealthWorks and its affiliates from responsibility of any reaction resulting from the injection, and I take full responsibility to seek medical attention should more severe symptoms occur. I acknowledge I have no condition including, but not limited to, those listed in Sections 1 & 2 above that would prevent me from receiving an influenza vaccination at this time.

I have read, or had explained to me, the CDC's Vaccine Information Statement (VIS) for the seasonal flu vaccine and understand the risks and benefits.

I give consent to HealthWorks and its staff to administer the 2022-2023 Seasonal Influenza Vaccine to me.
